Outreach Galore!

Culver Youth Club - every Thursday

This month's topics include how leaves change colors, why animals forage and leaf identification

Wetlands Tour - 10/9

We have 27 people signed up to learn more about Lake Maxinkuckee's important wetlands

Culver Fall Fest - 10/9

LMEF will have a table with crafts for the kids

Culver High School Biology Class - 10/13

70 Culver High School students will participate in an interactive lesson: how our actions on land impact the lake

The Vonnegut Legacy Continues

If you are a regular reader of my blog, you already know that LMEF received a grant from the [Ralph C. Vonnegut Jr. Fund](#) to [purchase equipment for stream monitoring](#).

I asked for volunteers and one of the

Are You a Waiter or A Writer?

I typically write articles dealing with subject matters that I am familiar with. I have written about aquatic plants, macroinvertebrates, water quality, outreach, etc.

You will notice, however, that I

people who responded was Ginny Vonnegut Hahn – a niece of Ralph Vonnegut's.

She commented that she was initially intrigued to volunteer because the money came from her uncle.

[Read Full Article](#)

haven't written much about birds or fish or reptiles. Those subjects just aren't in my wheelhouse.

Someone suggested I tap into the talent in the Lake Maxinkuckee - Culver community and ask others to share their expertise.

The Lorax Scarecrow

Thanks to Kyle Sefchek, Katiy Stacy and Rebecca Sam for our Lorax scarecrow. How appropriate!

"Unless someone like you cares a whole awful lot, nothing is going to get better. It's not." - The Lorax

Thank you all for caring!

2021 Aquatic Vegetation Survey

In an effort to determine a course of action for controlling two invasive species in the lake, Eurasian watermilfoil and Starry Stonewort, LMEF contracted with Aquatic Weed Control this summer to conduct an Aquatic Vegetation Survey.

The information we received will be vital in making long term decisions for the overall health of the lake. Your donations and continued support make projects like this possible. Thank you.

2021 Fundraising Campaign Reminder

LMEF's outreach, education, water monitoring, research and advocacy would not be possible without the support of our dedicated donors.

If you have not already made your gift, won't you do so today?

We rely on YOU to help support our mission:

Working towards the preservation of an ecologically sound Lake Maxinkuckee and its surrounding watershed.

Fall Decorating Looks Great!

It's easy to give today, simply click the Donate button!

Or send your check to:
