## For the Sake of the Lake

It's no secret that boats churn up the sediment from the bottom of the lake. The turbidity, or how clear the water is, changes after a weekend of heavy boat traffic. One damaging issue from this disturbance of the lake bottom is the release of nutrients stored in the sediment, which in turn causes increased algae growth.

## Murals Are Complete!

With funding from the Marshall County Community Foundation Vonnegut Fund, LMEF collaborated with Heartland Artists to use the storm drains as a canvas to educate residents about stormwater pollution through art.

Official unveiling at the East Lakeshore Dr. location Friday, July

15th at 6:30 pm.

Only Rain Down the Drain!

### Combatting Eurasian Watermilfoil

*June survey showed little growth, so treatment was postponed until July. It hasn't gone away, just slow to appear this year. Specific treatment date TBD.*
